RBE-1 SYSTEM

Factory Pre-Wired
 Simplified Maintenance
 Plug & Play Installation

SPECIFICATION FEATURES

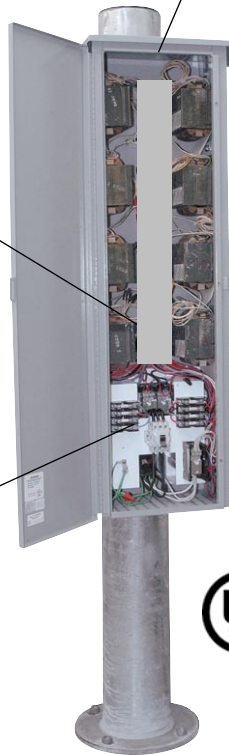

All electrical components are pre-wired at the factory with mating connectors to each luminaire, allowing for easy plug & play installation. Drop cables include Kellums cord grips for safe, secure feed-through up the pole.

Polyethylene jacketed 17 conductor, 14 Ga. wire rated at 600V. Each luminaire individually fused. Wiring capabilities for all voltages in single or three phase systems.

Unique design allows electrical components to run cool, ensuring long system life.

NEMA 3R rated enclosure is constructed of galvaneal steel and finished in a durable polyester powder coat paint. Enclosure can house electrical components for up to eight luminaire.

Enclosure mounts quickly and easily to any American Sports Lighting pole.

Our Remote Ballast Prewired System is all inclusive. It includes all of the ballasts and electrical components in a factory assembled Nema 3R enclosure as well as all of the pre pinned drop cables that are ready to plug n play. We also prewire all of the fixture mounting plates on the crossarms or service platforms.
